President's Post

I imagine that you are enjoying your holiday break but at the same time anticipating your return to U3A activities resuming in the week starting the 16th July 2018. In May we were pleased to be able to recognise the great effort made by volunteers in our society in National Volunteer Week. As an organisation wholly run by volunteers U3A is a wonderful example of what can be achieved when we have committed volunteers.

To this end I would like to thank everyone who helps to make U3A Wheelers Hill the growing and interesting place it has become. My special thanks go to the committee, our class leaders and their helpers, administration staff and the welcome team.

There are a couple of changes to the program for Term 3, see below.

ACFE funding is no longer allocated to each U3A under a new arrangement, consequently larger projects are undertaken that have results that may be able to be accessed by all U3As in Victoria. It may be of interest to you that there are 107 U3As in Victoria.

We are still looking for a class leader who is interested in conversational French. The leader does not have to be qualified so a friendly French speaker would be a great asset. We are also looking for someone to assist with finding articles for our Newsletter. Not an onerous task but ever so useful so that accurate information about our doings get out to our U3A community.

An important message is that when the enrolments for 2019 take place in December 2018 and January 2019 those people who are volunteers will have the *first choice of classes*. These dedicated people will be able to enrol one week earlier than general members. It must also be noted that no places are held over from the previous year, so it will be that first in are more likely to get their choice of classes.

Be Connected is a wonderful initiative to help us all get online in a meaningful and confident manner. You will be pleased to know that U3A WH has managed to win a grant so that we can get equipment and give you support to participate more online. Look out for the two newly devised courses to be run by Tony Danino on the website.
