

Message from the President

News Bulletin – 12 July 2022

Members

We received communication from Monash Council following the state government pandemic orders and public health recommendations today due to the increase in COVID cases and the rise of colds and flu in Victoria.

Effective from midnight tonight, **mask wearing is strongly recommended indoors and in crowded settings.**

While not yet mandated, it is in everyone's health and safety; we support the recommendations and urge that you seriously consider returning to wearing masks while engaging in group activities.

Sanitisers are available across the facilities and classrooms. Please continue hand washing and sanitising routines and maintain social distancing.

Stay home if you are not well. Please.

Be well and take care.

Ann Findlay
President
